Subject Index

- Abscess fluid—metal binding anticandidal activity of, 295
Acid proteinase—of *C. albicans*, inhibition of secretion of, 1
negative mutants of *C. tropicalis*, 257
Actinoadura pelletieri—host tissue reaction to, 343
ultrastructure of, 343
Adherence of *C. albicans* to cultured keratinocytes, 473
AIDS—oral amphotericin B in treatment of fluconazole resistant thrush in, 389
Ambisome in murine coccidioidomycosis, 467
Amphotericin B—in treatment of fluconazole resistant thrush in AIDS, 389
Anticandidal activity of abscess fluid and serum, 295
Antimycotic activity against vaginal yeast isolates, 267
Arachnomyces nodosetosus—teleomorph of *O. canadensis*, 275
Aspartic proteinase from *A. fumigatus*—characterisation of, 427
purification of, 427
Aspergillosis—antibodies to *A. fumigatus* elastase in patients with, 231
clusters and sources of infection, 217
Aspergillus—in medical mycology, 477
Aspergillus fumigatus—antibodies to elastase from, in aspergillosis, 231
characterisation of aspartic proteinase from, 427
purification of aspartic proteinase from, 427
Australia—entomophthoromycosis caused by *B. ranarum* in, 225
Basidioibolus ranarum—in entomophthoromycosis in Australia, 225
Candida—neutral red for estimation of viability of, in skin scales, 31
Candida albicans—adherence of, to cultured keratinocytes, 473
characterisation of fatty acid synthase from, 13
electrophoretic karyotypes of, 133
epidermolytic proteinase and virulence in mice, 59
glucose uptake and growth cessation in, 461
helical growth of, 437
immunodominant 65 kDa mannoprotein from, 447
inhibition of acid proteinase secretion by, 1
inhibitory effects of antifungal agents on, 151
morphological effects of antifungal agents on, 151
phase-specific genes in, 287
pseudohyphal arrays in protection against neutrophils, 21
purification of fatty acid synthase from, 13
species-specific DNA fragment from, 71
switching in, 287
Candida tropicalis—acid proteinase of, 257
virulence of proteinase negative mutants of, 257
Cat—encephalitis caused by *O. gallopavum* in, 141
Chromosome aberrations in lymphocytes from paracoccidioidomycosis patients, 199
Clusters of invasive aspergillosis, 217
Coccidioidomycosis—efficacy of Ambisome in, 467
treatment of, with D0870, 323
treatment of, with SCH 39304, 105
Cutaneous candidosis in guinea-pigs, 349
Cryptococcus neoformans—glial cell adherence and internalisation of, 361
killing of, by rat peritoneal cells, 405
melanin-deficient mutants of, 303

- phylogenetic analysis of rRNAs of, 163
 - restriction fragment polymorphisms of rRNAs of, 163
 - secondary structure of rRNAs of, 163
 - sequence of rRNAs of, 163
 - strains of, with defined capsular phenotypes, 401
 - vertebral osteomyelitis due to, 315
- Defined capsular phenotypes of strains of *C. neoformans*, 401
- Dematiaceous—a mycological misnomer, 319
- Dermatophytes—neutral red for estimation of viability of, in skin scales, 31
- phylogeny of, 331
- Detection of renal casts in experimental renal candidosis, 415
- Dimorphic fungi—phylogeny of, 331
- D0870 in treatment of coccidioidomycosis, 323
- Elastase—antibodies to, in patients with aspergillosis, 231
- Electrophoretic karyotypes of *C. albicans*, 133
- Encephalitis caused by *O. gallopavum*, in a cat, 141
- Entomophthoromycosis—due to *B. ranarum* in Australia, 225
- Epidermolytic proteinase of *C. albicans* and virulence in mice, 59
- Exoantigens from *P. brasiliensis*—gelatinase activity of, 65
- Exophiala jeanselmei* var. *lecanii-corni*—in phaeohyphomycosis, 373
- Experimental coccidioidomycosis—efficacy of Ambisome in, 467
- treatment of with D0870, 323
- Experimental cutaneous candidosis in guinea-pigs, 349
- Experimental disseminated candidosis—serum D-arabinitol in, 205
- Experimental paracoccidioidomycosis—plasma amylase as a marker of disease severity in, 37
- Experimental renal candidosis—detection of renal casts in, 415
- Experimental trichophytoses, efficacy of—fluconazole in, 181
- itraconazole in, 181
 - terbinafine in, 181
- Fatty acid synthase from *C. albicans*—characterisation of, 13
- purification of, 13
- Fluconazole—efficacy of, in experimental trichophytoses, 181
- Gelatinase activity of exoantigens from *P. brasiliensis*, 65
- Glial cell adherence and internalisation of *C. neoformans*, 361
- Glucose uptake and growth cessation in *C. albicans*, 461
- Guinea-pigs—experimental cutaneous candidosis in, 349
- Heat-shock protein 80 of *H. capsulatum*, 47
- Helical growth of *C. albicans*, 437
- Histoplasma capsulatum*—heat-shock protein 80 of, 47
- Histoplasmosis—ocular, in Mexico, 83
- oral, in India, 93
- Host tissue reaction to *A. pelletieri*, 343
- Immunodominant 65 kDa mannoprotein from *C. albicans*, 447
- India—oral histoplasmosis in, 93
- Induction of germination of *T. beigellii*, 123
- Infection and invasion of Vero cells by *P. brasiliensis*, 189
- Inhibition of acid proteinase secretion by *C. albicans*, 1
- Inhibitory effects of antifungal agents on *C. albicans*, 151
- Invasive aspergillosis—clusters and sources of, 217
- Itraconazole—efficacy of, in experimental trichophytoses, 181

- Keratinocytes—adherence of *C. albicans* to, 473
Killing of *C. neoformans* by rat peritoneal cells, 405
- Lymphocytes—chromosome aberrations in, from paracoccidioidomycosis patients, 199
- Medically relevant yeasts—polymerase chain reaction in identification of, 115
restriction enzyme analysis in identification of, 115
Melanin-deficient mutants of *C. neoformans*, 303
Mexico—syndrome of presumed ocular histoplasmosis in, 83
Morphological effects of antifungal agents on *C. albicans*, 151
Mycotic keratitis, 235
- Nail infections due to *O. canadensis*, 275
Neutral red for evaluation of fungal viability in skin scales, 31
Neutrophils—protection from, by *C. albicans* pseudohyphal arrays, 21
- Ochroconis gallopavum*—cause of encephalitis in a cat, 141
Ocular histoplasmosis in Mexico, 83
Onychocola canadensis—nail and skin infections due to, 275
Oral histoplasmosis in India, 93
- Paracoccidioides brasiliensis*—gelatinase activity of exoantigens from, 65
infection and invasion of Vero cells by, 189
production of protoplasts from, 381
reactive epitopes of polysaccharide antigen from, 77
Paracoccidioidomycosis—chromosome aberrations in lymphocytes from patients with, 199
plasma amylase as a marker of disease severity in, 37
Pseudothrombomycosis—due to *E. jeanselmei* var. *lecanii-corni*, 373
Phase-specific genes in *C. albicans*, 287
Phylogenetic analysis of rRNAs of *C. neoformans*, 163
Phylogeny of dermatophytes and dimorphic fungi, 331
Plasma amylase as a marker of disease severity in experimental paracoccidioidomycosis, 37
Polymerase chain reaction in identification of medically relevant yeasts, 115
Polysaccharide antigen of *P. brasiliensis*—reactive epitopes of, 77
Pseudohyphal arrays of *C. albicans* in protection against neutrophils, 21
Protoplasts from *P. brasiliensis*, 381
- Rat peritoneal cells—in killing of *C. neoformans*, 405
Reactive epitopes of *P. brasiliensis* polysaccharide antigen, 77
Renal casts—detection of, in experimental renal candidosis, 415
Restriction enzyme analysis in identification of medically relevant yeasts, 115
Restriction fragment polymorphisms of rRNAs of *C. neoformans*, 163
rRNAs of *C. neoformans*, 163
- SCH 39304 in treatment of coccidioidomycosis, 105
Secondary structure of rRNAs of *C. neoformans*, 163
Serum D-arabinitol in experimental disseminated candidosis, 205
Serum—metal-binding anticandidal activity of, 295
Sequence of rRNAs of *C. neoformans*, 163
Skin scales—estimation of fungal viability in, with neutral red, 31
Skin infections due to *O. canadensis*, 275
Sources of invasive aspergillosis, 217
Species-specific DNA fragment from *C. albicans*, 71
Suppression of germination of *T. beigeli*, 123
Switching in *C. albicans*, 287

- Syndrome of presumed ocular histoplasmosis in Mexico, 83
Systemic fungal infections in Thailand, 395
- Terbinafine—efficacy of, in experimental trichophytoses, 181
Thailand—systemic fungal infections in, 395
Thrush—amphotericin B in treatment of fluconazole resistant, in AIDS, 389
Treatment of coccidioidomycosis with SCH 39304, 105
Trichophyton tonsurans var. *sulphureum*—unusual variant of, 147
Trichosporon beigeli—induction and suppression of germination of, 123
- Ultrastructure of *A. pelletieri*, 343
- Vaginal yeasts—antimycotic activity against, 267
Variant of *T. tonsurans* var. *sulfureum*, 147
Vero cells—infection and invasion of, by *P. brasiliensis*, 189
Vertebral osteomyelitis due to *C. neoformans*, 315
Virulence of *C. albicans*—role of epidermolytic proteinase in, 59
Virulence of *C. tropicalis* proteinase negative mutants, 257
